# Spending Timeline

---

Start spending after your project start date

Expend all funds before your project end date

Alert OLIS **as soon as possible** if you will NOT be expending your total award

## What if my library cannot afford to spend money up front?

---

Request funds as you go for purchases you will make within 30 days. We will *not* be withholding 20% so you will not need to find funds for that.

How do I spend money within 30 days if I don't receive money for 30 days?

---

Spend can mean “encumber” or “place an order” even if the money isn't out the door.

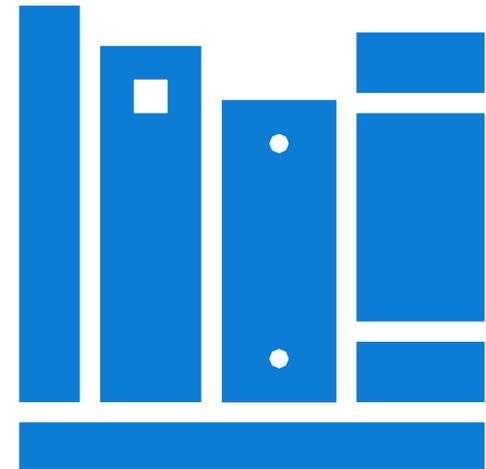

---

You have 30 days from when you receive your funds if necessary.

# How do I spend money within 30 days if I don't receive money for 30 days?

---

On December 1, you place an order with Ingram or Follett. You request funds for the total on December 2. You receive the books on December 10 with a net 30 invoice. You get your funds from OLIS on or before January 2. You pay your invoice on or before January 10.

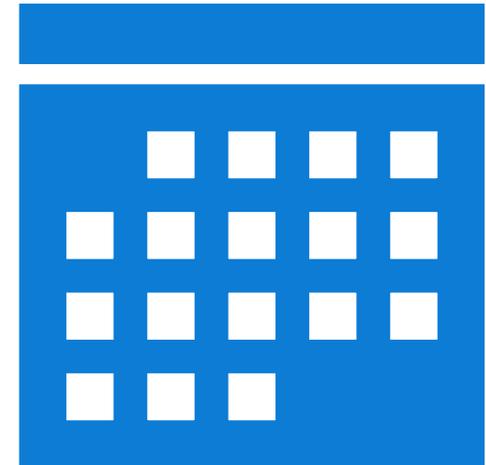

# Can I purchase items before the start date I listed in my agreement?

---

Purchasing is a project activity and should not start before the start date.

If you selected a late start date (in 2022) but would like to make purchases in advance of that, contact me and we will update the start date on your agreement.

If you started making purchases before your start date, contact OLIS immediately so we can amend your start date.

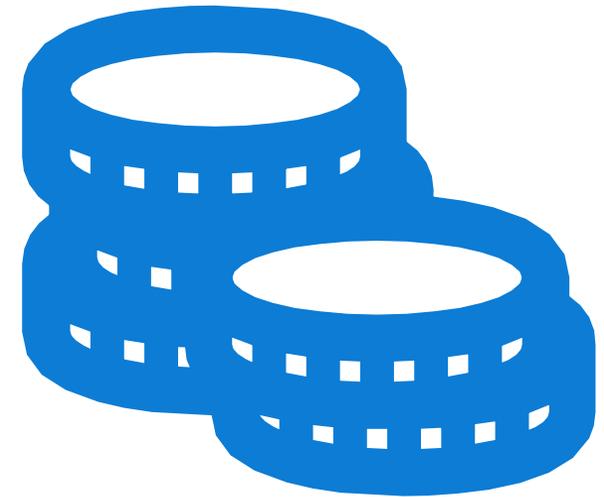

# Can I pay sales tax with grant funds? Can I pay for shipping?

---

Do not pay sales tax, you are a tax-exempt organization.

Grant funds should not be used on sales tax

Yes, you may pay shipping costs. Please separate those out under “other costs”

# Tracking your Funds

---

Track how much you have requested to accurately fill out the request for payment form

Use the OPTIONAL expense tracker to make filling out your report a breeze!

Maintain records for all expenditures, including proof of payment and proof that you received the items

Save documentation and be prepared to provide to OLIS if necessary
